**Open Positions:**

Job Title	Junior Business Analyst
Type	Part-time
Location	Izmir, Turkey
Qualifications	<ul style="list-style-type: none"><li>- Fluent English</li><li>- Excellent Communication Skills</li><li>- Experience in Requirements Analysis: use cases, use case diagrams, storyboards, wireframes, flow diagrams, meeting minutes, etc.</li><li>- Experience in Testing: writing test scenarios, using issue tracking tools, etc.</li><li>- Experience abroad is a plus for this position</li></ul>
Description	<p>We are looking for a 4<sup>th</sup> year software/computer engineering student who can start working part time immediately, then become a full-time resource after graduation.</p> <p>Business Analyst (BA) will be working in a team with software architect and developers. BA will conduct regular requirements gathering meetings over the phone with clients in the US, so fluent English is mandatory. After each meeting, requirements will be documented as use cases and wireframes, and they will be communicated to the developers. Product testing will be performed by the BA as well. BA plays a bridge role between the client and the development team. Each BA may give support to multiple projects at the same time depending on the size of the projects.</p> <p>Since this is a junior position, we will provide a mentor to train this resource before they can work on their own.</p>

**Note: The interviews will be in English. Resource must be at the office minimum of 2.5 (preferably 3) days per week.**
